

The background image shows a modern bedroom with a bed, a tufted headboard, and a window with sheer curtains. In the foreground, two circular speakers are shown: one from the front, revealing a white grille with a central pivot point and two tweeters, and another from the back, showing a grey mesh cover. The SpeakerCraft logo is on the left.

SpeakerCraft®

AIM7 DT Series

A single speaker that plays both left and right channels is a requirement in certain situations. Bathrooms, laundry rooms, guest bedrooms and walk-in closets are just a few of the places where such a speaker could be the perfect solution. The original DT series was designed to fill this need and has been widely accepted as the industry standard. Now we have added our patented AIM technology to our DT line allowing the entire baffle to pivot and aim the sound at the listening area.

The AIM7 DT offers a 7" woofer and dual tweeters. In many situations these speakers will produce all the sound you will ever need. As you place them in ancillary rooms you will discover the benefits of a system that literally fills the house with music.

AIM7 DT Three

- (2) 1" Pivoting Aluminum Dome Tweeters
- 7" Pivoting Aluminum Cone Woofer
- Efficiency: 91 dB 1W/1m
- Frequency Response: 55Hz - 20 kHz
- Patent Pending

AIM7 DT One

- (2) 1" Pivoting Silk Dome Tweeters
- 7" Pivoting Polypropylene Cone Woofer
- Efficiency: 91 dB 1W/1m
- Frequency Response: 55Hz - 20 kHz
- Patent Pending

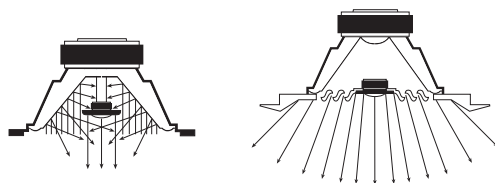

DT6 Zero

- (2) 1" Silk Dome Tweeters
- 6.5" Polypropylene Cone Woofer
- Efficiency: 91 dB 1W/1m
- Frequency Response: 60Hz - 20 kHz
- Patent Pending

Our speakers sound much better off-axis!

Only SpeakerCraft offers the exclusive WavePlane™ tweeter baffle which is located just behind the tweeter of all AIM in-ceiling speakers. The WavePlane™ creates better high frequency dispersion. This is accomplished by allowing the tweeter to reflect off a solid surface instead of the vibrating woofer. Ordinary speakers only sound their best when you are directly underneath them. This is because high frequencies are directional. The WavePlane™ assures optimal high frequency dispersion throughout the listening area.

* All AIM Speakers come with Limited LIFETIME Warranty
