

 SpeakerCraft®
The background of the advertisement features a large, modern interior space with a high ceiling and large windows. A couple is lying on a large, light-colored sofa, looking up and smiling. In the background, there is a dining area with a glass table and chairs, and a large wooden bench. The overall atmosphere is bright and airy.

AIM Cinema Series

As built in, high performance, home theaters are installed around the world, we are finding that more customers are demanding front channel speakers with greater fidelity and higher sound pressure levels than ever before. The all new AIM Cinema Monitor Series is our answer. They are bigger, better and badder than anything in the category.

These speakers utilize the equivalent of an AIM LCR on a pivoting sub-baffle for the mid-bass, mid-range and high frequencies. Below that are two high performance 6-inch woofers on a separate stationary sub-baffle to increase output and extend the low frequencies. Available in three models to fit your need, the AIM Cinema Series provides the incredible impact and dynamics necessary in today's home theaters.

AIM Cinema Five

- 1" Pivoting Aluminum Dome Tweeter
- (2) 5" Pivoting Kevlar Cone Woofers
- (2) 6" Paper Cone Woofers with Kevlar Fibers
- Efficiency: 91dB 1W/1m
- Frequency Response: 35Hz - 20kHz
- Patent Pending

AIM Cinema Three

- 1" Pivoting Aluminum Dome Tweeter
- (2) 5" Pivoting Aluminum Cone Woofers
- (2) 6" Paper Cone Woofers with Kevlar Fibers
- Efficiency: 91dB 1W/1m
- Frequency Response: 39Hz - 20kHz
- Patent Pending

AIM Cinema One

- 1" Pivoting Silk Dome Tweeter
- (2) 5" Pivoting IMG Cone Woofers
- (2) 6" Paper Cone Woofers with Kevlar Fibers
- Efficiency: 91dB 1W/1m
- Frequency Response: 40Hz - 20kHz
- Patent Pending

* All AIM Cinema speakers come with Limited LIFETIME Warranty

* As we incorporate design improvements, specifications may change without notice
