

 SpeakerCraft®

AIM Wide Series

Ceiling speakers have become the first choice for the majority of consumers who are interested in home theater or multi-room installations. At SpeakerCraft, we have addressed this demand with a variety of different models. The new AIM WIDE was originally intended for creating a diffused rear sound field in a home theater. However, it has become clear that customers are just as interested in using them for high-performance multi-room installations.

The AIM WIDE has the same footprint and woofers as the AIM 8. However, the rest of the speaker is a huge departure from that familiar format. A unique dual mid-tweeter module is mounted directly over the woofer with two 2-inch dome midrange drivers and two 1-inch dome tweeters facing 70 degrees off axis from each other. The result is ultra-wide dispersion with tremendous fidelity.

AIM Wide Five

- (2) .75" Pivoting Aluminum Dome Tweeters
- 8" Pivoting Kevlar Cone Woofer
- (2) 2" Midrange Kevlar Cone Woofers
- Efficiency: 91 dB 1W/1m
- Frequency Response: 33Hz - 20 kHz
- Patent Pending

AIM Wide Three

- (2) .75" Pivoting Aluminum Dome Tweeters
- 8" Pivoting Aluminum Cone Woofer
- (2) 2" Midrange Aluminum Cone Woofers
- Efficiency: 91 dB 1W/1m
- Frequency Response: 37Hz - 20 kHz
- Patent Pending

AIM Wide One

- (2) .75" Silk Dome Tweeters
- 8" IMG Cone Woofer
- (2) 2" Midrange IMG Cone Woofers
- Efficiency: 88 dB 1W/1m
- Frequency Response: 40Hz - 20 kHz
- Patent Pending

* All AIM Speakers come with Limited LIFETIME Warranty

* As we incorporate design improvements, specifications may change without notice
